Dishwashers

*See specific models for details

FEATURE	DESCRIPTION
EcoPower Technology	With a new water flow system, G7000 dishwashers save both water and energy earning the ENERGY STAR Most Efficient 2022 badge. In the Auto program, run a full cycle using less than 1.6 gallons of water.
3D MultiFlex Cutlery Tray	Provides a new level of convenience by adapting instantly to accommodate larger utensils, as well as taller stemware in the upper basket.
BrilliantLight	Four powerful LED lights illuminate the dishwasher from the inside out.
AutoOpen Drying	The dishwasher door automatically opens at the end of the cycle, allowing air to escape and circulate for perfect drying.
AutoDos with PowerDisk	In G 7000 dishwashers, the integrated PowerDisk® automatically dispenses the correct amount of detergent in accordance with the selected program and degree of soiling.
FlexLine Baskets	Easily adjustable to accommodate a wide array of dishware, utensils, stemware, pots and pans.
Knock2Open	Automatic door opening after two knocks. Integrates seamlessly in a handleless kitchen.
QuickIntenseWash	Excellent cleaning and drying results for normally soiled dishes in only 58 minutes.
SaniWash	High temperature program for deep cleaning results.
Miele@home	Access your appliance from your smart device for maximum convenience.
AutoSensor	Automatically adjusts program Time, Temperature, & Water volume based on multiple measurements of turbidity
Certified Hygiene Seal	All Miele dishwashers remove more than 99.9% of specific bacteria.*
Golden Virus Seal	All Miele dishwashers remove more than 99.9% of all viruses.*

Certified Hygiene Seal

*Approved by Rhein-Waal University. This certification attests that all G 5000 and G 7000 dishwashers with the SaniWash or Pots & Pans program offer particularly hygienic cleaning. This applies both with (standard) detergent or even without cleaning agent altogether.

Golden Virus Seal

*Approved by Albstadt-Sigmaringen University. Depending on the program selected, different types of viruses are getting removed. In all programs, including Economy, enveloped viruses including the Coronavirus are removed. This certification is based on the use of Miele PowerDisk and Miele UltraTabs detergents.

24” Dishwasher - Pre-Finished

MODEL	HANDLE TYPE	MATERIAL	UMRP/RETAIL
G 5006 SCU Clean Touch Steel™	Integrated Handle	11636690	$1,299 / $1,399

Product Highlights

Professional for the Home Dishwashers

*See specific models for details

ProfiLine

With their impressively short cycle times, ProfiLine Dishwashers are 2.5x faster than domestic dishwashers with only a 24-minute cycle time.

FEATURE	DESCRIPTION
Exemplary Hygiene	Special 'SaniWash' program achieve temperatures of 180°F | 82°C. Final rinse temperatures for selected programs can also be increased for even greater hygiene.
12,500 Program Cycles	ProfiLine dishwashers are tested under laboratory conditions to ensure that they last 12,500 typical cycles and are designed for up to 5 cycles per day.
Intuitive Operation	All programs use intuitive sensor controls. Self-explanatory symbols and key content in plain text speed up program selection and avoid operating errors.
Versatile Baskets	For simple loading and a large volume of dishware ProfiLine represents the perfect stepping stone into the world of commercial dish care.
Golden Virus Seal	All Miele dishwashers remove more than 99.9% of all viruses.*

Freshwater

Intelligent dishwashing technology and a powerful heater pump ensure optimum program durations and cleaning results.

FEATURE	DESCRIPTION
Plastic Baskets on two levels	Plastic baskets can be used on two levels in dishwasher models PG 8056 and PG 8061. Three spray arms allow perfect cleaning results to be achieved on both washing levels.
Connection for Dispenser Module	To simplify the use of liquid detergents and rinse aid, up to 2 liquid dispensing modules can be optionally connected, in the PG 8056 and PG 8061 dishwashers.
Perfect GlassCare	Miele Professional dishwashers use Perfect GlassCare in the glasses program. This technology adjusts the water hardness precisely so that all the glasses are thoroughly but gently cleaned.
NSF/ANSI 3 Certified for Sanitization	For facilities that require a NSF/ANSI 3 certified dishwasher, the PG 8061 features a final rinse temperature of 185°F with a 1 minute holding time.

Golden Virus Seal

*According to the InFluenc_H - Institute for Integrative Hygiene and Virology, cleaning with ProfiLine dishwashers using Miele's ProCare Shine 12 GC cleaning agents removes enveloped and non-enveloped viruses (e.g. coronavirus, influenza, or noroviruses) in the Pots & Pans and Sanitize programs, as well as enveloped viruses (excluding Hepatitis B) in the QuickIntenseWash and Universal programs, even if load items are difficult to reprocess.

24” Dishwasher - Pre-Finished

Product Highlights

Washing Machines

*See specific models for details

FEATURE	DESCRIPTION
Honeycomb Drum	The Honeycomb drum has a special sculptured surface which allows fabrics to glide on a thin cushion of water.
TwinDos	Liquid detergent automatic dispensing system for achieving the best wash results. Save up to 30% detergent compared to manual dispensing.
IntenseWash	IntenseWash offers the highest level of cleaning, with Spin&Spray technology using less water and heating energy.
QuickIntenseWash	Utilizing the IntenseWash technology, the QuickIntenseWash program provides excellent cleanliness in just 49 minutes.
SingleWash	An efficient solution for washing single garments quickly, while saving water and energy.
CapDosing	Dispense special detergent for different types of fabric by placing a portioned capsule into the fabric softener compartment.
Certified Hygiene Seal	All Miele W1 Washing Machines remove more than 99.99% of specific bacteria.*
Golden Virus Seal	WXI 860 WCS and WXR 860 WCS Miele Washing Machines remove more than 99.9% of all viruses.*

Dryers

FEATURE	DESCRIPTION
Honeycomb Drum	Fewer creases and easier ironing, the honeycomb structure allows laundry to be dried gently and evenly.
Heat-Pump Technology	Saving up to 60% in energy consumption, the heat generated is reused and low temperatures protect the high-quality fibers in the most delicate fabrics.
FragranceDos and FragranceDos^2	Miele fragrance flacons add your favorite scent to your laundry during the drying process. With FragranceDos^2, you can insert two flacons into the machine at once to switch between your two favorite fragrances.
SteamFinish	A great alternative to ironing, steam and smooth your laundry during the drying process.
PerfectDry	PerfectDry takes the mineral content of your water into account and modifies the drying process accordingly.

Certified Hygiene Seal

*Proven by Rhine-Waal University of Applied Sciences, all Miele W1 Washing Machines remove more than 99.99% of specific bacteria when using the Sanitize Program.

Golden Virus Seal

*Select Miele Washing Machines remove more than 99.9% of all viruses. Applies to W1 Washing Machines with TwinDos and IntenseWash, in combination with the Sanitize Program and AllergyWash option.

Product Highlights

Professional for the Home Laundry

*See specific models for details

Washing Machines

FEATURE	DESCRIPTION
Honeycomb Drum	Has a perforated rear panel for fast wetting of laundry. The perforated rear panel Honeycomb Drum combined with high spin speeds supports shorter cycle time without compromising on performance.
Express Wash	Providing excellent cleanliness in just 25-minutes.
Ultimate Convenience	With intuitive M Touch controls, easily select your settings with the swipe of a finger. Choose from 50+ programs; 5 are customizable.
CapDosing	Dispense special detergent for different types of fabric by placing a portioned capsule into the fabric softener compartment.
Professional Grade Laundry for the Home	The Little Giant Washers have a 2.58 ft^3 drum size and provide professional-grade disinfection and fabric care in a high-efficiency, compact system.

Dryers

FEATURE	DESCRIPTION
Honeycomb Drum	Fewer creases and easier ironing, the honeycomb structure allows laundry to be dried gently and evenly.
Heat-Pump Technology	Saving on energy consumption, the heat generated is reused and low temperatures protect the high-quality fibers in the most delicate fabrics.
Ultimate Convenience	With intuitive M Touch controls, easily select your settings with the swipe of a finger. Choose from 35 programs; 5 are customizable.
PerfectDry	PerfectDry takes the residual moisture level into account and modifies the drying process accordingly.
Powerful Drive System	Two separate motors for a quicker and more efficient drying process with even less creasing.
